**(Lyman, SC)**— SEW-Eurodrive has engineered the Food Industry Option Package, a drive system with specialized components to meet the particularly harsh environments of the food industry—including damp conditions and chemical wash downs. The Food Industry Option Package includes a 2-year warranty covering any motor failure that results from moisture damage.

The package features TorqLOC<sup>®</sup>, SEW's patented keyless hollow shaft mounting system designed especially for the food industry. TorqLOC eliminates the need to supply a key or turn the shaft to exacting tolerances. Its interchangeable, tapered bushings fit a variety of standard shaft sizes without additional machining and permit easy removal after years of use.

Key Features of the Food Industry Option Package include:

- FT, KT or ST gearboxes with symmetrical stainless steel TorqLOC, or R or RF gearboxes with stainless steel solid output shaft
- Klubersynth UH 1 6-460 synthetic food grade oil, H1 approved
- Multi-layered stainless steel food-industry coating process specifically for the harsh environments in the food industry
- Stainless steel oil level plug and stainless steel nameplate
- PTFE seals
- Fully encapsulated inverter duty stator and fully encapsulated conduit box
- Food processing approved connection cable

For an in-depth look at SEW's Food Industry Option Package, please visit [www.seweurodrive.com/iop](http://www.seweurodrive.com/iop).

**SEW-Eurodrive**, one of the largest global suppliers of drive technology, has supplied U.S. industry for 30 years with the broadest selection of custom drive solutions and the most responsive support in the industry. SEW USA includes a world-class manufacturing plant, 5 assembly centers, and over 60 technical sales offices strategically located across the country. SEW's global manufacturing strength, combined with local assembly capability, ensures a consistent quality standard in drive technology, service and support — a single resource across America and around the world.

For more information, contact your local SEW-Eurodrive sales/assembly center or sales representative at [www.seweurodrive.com](http://www.seweurodrive.com).

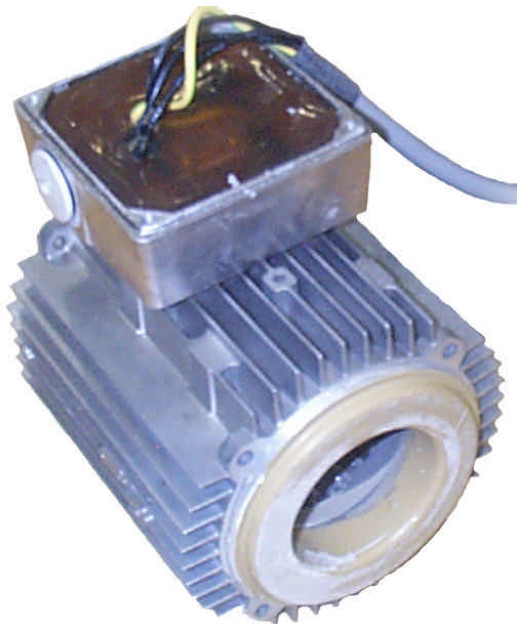

###

# *IOP for Food*

The IOP, short for Industry Option Package, is a gear motor package with features that meet requirements for a specific industry. Because machinery in the food industry must endure particularly harsh environments, SEW-Eurodrive has engineered a drive system built specifically to meet those challenges.

## **Features**

- Fully encapsulated inverter duty stator

- Fully encapsulated conduit box.
- Food processing approved connection cable.
- Low friction PTFE seals.
- Stainless Steel output shaft.
- Multi-layered (4) stainless steel food coating process.
- Stainless Steel oil level and drain plug.
- Stainless Steel nameplate.
- Synthetic food grade oil.

- 2-year warranty (the warranty covers any motor failure caused by water inside the motor).
- F, K, and S boxes with SEW-Eurodrive's patented keyless hollow shaft mounting system, TorqLOC

## **Product Advantages**

- Suitable for wash down applications.
- Oil and coating meets USDA and FDA requirements.
