

GARLOCK KLOZURE® HIGH-PERFORMANCE DYNAMIC SEALS

XPS™ SIP Cartridge Seal

The first “Serviceable in Place” Cartridge Seal

Reducing downtime and operating costs is paramount in today’s industrial market. The new XPS™ SIP seal from Garlock Klozure®, designed primarily for the ANSI Pump family*, has been developed to specifically address those needs. The XPS™ SIP seal is equipped with multiple sealing elements which provide the user with the ability to deploy a new seal on demand. This replacement of the sealing element occurs with no equipment tear down and can be made while the pump is still in operation.

Reduce your overall operating costs by eliminating unnecessary downtime and minimizing maintenance costs. Turn to the sealing experts at Garlock Klozure® – turn to the XPS™ SIP Cartridge Seal.
